

EduLink One Student Guide

To log into our new parental engagement system (previously Insight), please follow the steps below

Using a web browser:

These steps will work on browsers including Chrome, Firefox, Safari

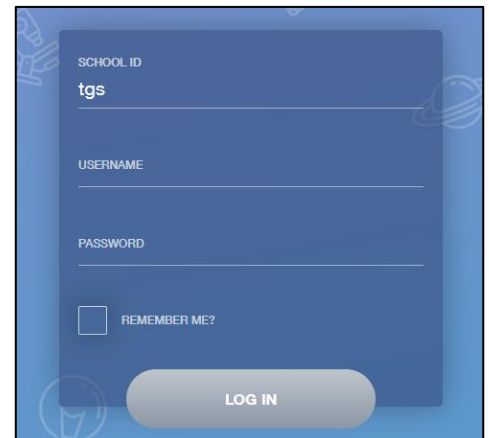

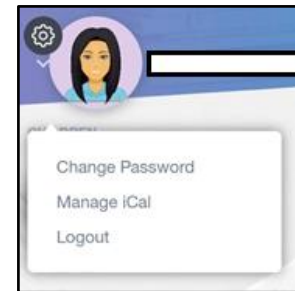

1. Visit <https://www.edulinkone.com/#!/login?code=tgs>
2. Enter your School username and password
3. Click Log in to get started

Using the mobile app:

These steps will work on iOS and Android devices

1. Ensure you have either a pin or biometric identification setup on your device, in order to be able to log into the app
2. Download the iOS app [here](#), Android app [here](#) or Amazon app [here](#)
3. Enter the School ID (tgs)
4. Enter your School username and your password
5. Click Log in to get started

Select the different icons to view different sections of the app. For security, after 30 seconds of inactivity, you will be logged out of the app/website.

Features:

Update Information

This section shows your personal data. Changes can be made by adding a new address, number or email and clicking the green 'Save' button. When this is updated it will be checked and approved by the School Office.

Messages

The message section allows you to read any messages sent from school staff.

Exams

This section contains detailed information about your exams, including times, dates, exam name and location.

Timetable

This section allows you to view your timetable, including the lesson times and teachers.

School Links

This section contains links to useful resources, such as Foldr, Kerboodle and other School resources.

Attendance

In this section, you can view your attendance.

School Bulletin

The Parent bulletin will be available to view and download in this section.

Catering

Your remaining balance can be checked here, in addition to the date, time and product purchased.

Homework

This feature will list all the homework tasks set, including the date due, subject, description, any resources to aid the work and whether the task has been completed. Past homework can also be viewed.
